## PRODUCTS

| Toilet Cubicle Partitioning - 'Urban Range'  
| Compact Laminate Wall Panelling -  
'Duralam Range'

**Just 3 kilometers from downtown Auckland, the natural amphitheater Western Springs hosts crowds up to 55,000 for concerts and festivals. The renewal works at Western Springs Stadium encompassed the construction of two new amenity blocks and a new entry gate building to provide upgraded facilities for the various events at Western Springs.**

Working alongside Argon Construction, the Duraplan team enjoyed supplying and installing the Cubicle Partitioning in our 'Urban Flush Front Range' and the Wall Panelling in our 'Duralam Range'.
