Whakatōhea Mussels Ōpōtiki Ltd engaged Form to collaborate with the early stages of design for a state-of-the-art mussel processing factory in Ōpōtiki. The works consist of two large processing factory buildings with a drive-through canopy between them. The expansion of an Ōpōtiki mussel farm, along with a new processing factory will create 230 jobs in the Eastern Bay of Plenty town.

Working alongside Form Building & Developments, the Duraplan team enjoyed supplying & installing the Toilet & Shower Cubicle Partitioning, Bench Seating & Lockers throughout this new facility.
