Nestled in the heart of Auckland, the recently completed Te Kehu Way project stands as a testament to urban style precinct transformation, seamlessly blending retail and commercial spaces into a vibrant whole. Spearheading the construction of essential facilities within this architectural marvel, the Duraplan Team played a pivotal role by supplying and expertly installing state-of-the-art Duraplan Toilet cubicles and changeroom spaces across all levels. Their unwavering commitment to excellence and attention to detail ensured the delivery of top-quality amenities, enhancing the overall experience for the occupants of this impressive facility. As a result, Te Kehu Way not only stands as a symbol of architectural finesse but also as a testament to Duraplan's dedication to elevating the standards of modern urban living.
