Previously known as the Auckland Club Tower, 34 Shortland Street is a premium commercial office space in the heart of the Auckland CBD. Not only is there beautiful office spaces, there is also a top tier cafe in the building. Duraplan were thrilled to help with the upgrade of the End of Trip facilities for this property. Premium End of Trip Facilities are a must have in top tier commercial buildings, and at Duraplan Systems Ltd, we understand the significance of well-designed and efficiently executed facilities, especially in high-traffic areas such as 34 Shortland Street.

Working alongside LT McGuinness Ltd, Duraplan were pleased to supply & install the partitioning, lockers, and bench seating for the End of Trip facilities, elevating the overall experience for everyone who will utilize them.
