The \$60mil Woolworths Fresh Distribution Centre is located in the Tawhiri Industrial Park which adjoins the Izone Business Hub in Rolleston just outside of Christchurch. This development provides the Countdown network with an 11,500 square meter purpose-built distribution facility for its fresh and perishable product lines. This architecturally designed building has a number of sustainability features including, rain water harvesting, energy efficient lighting and controls together with added provision for solar panels to be installed at later stage.

Duraplan worked closely with Watts & Hughes Group to supply and install Toilet Cubicle Partitions, Lockers, and Bench Seating in this state-of-the-art facility.
